### Sustainable recreational fishing at the South Baltic coast

Discover the South Baltic Region as an interesting and attractive destination for recreational fishing and sustainable tourism!

# 1st Place

## The big throw

**Showing myself surf fishing in front of the former Beelitz shipyard on Fehmarn in Germany.**

**Jury:  
“The high dynamics of the photograph shows that fishing is not only a monotonous waiting for taking.”**

**Jury:**  
“An interesting shot with a beautiful sunset, is an interesting illustration of the vastness of the water and the small size of the lure.”

“Nice colours and nice mood in the picture.”

**Wading for the ferry.**

**Jury:**

**“Comparison of the size of the sea and a small angler. Interesting color of the sky.”**

**“Nice composition and beautiful warm light. Every fisherman knows that the ferry waves sometimes can be a ‘wake up call’ for the fish and maybe be the turning point for your fishing day.”**

**Adorable, steady, clear  
Baltic Sea.**

**Jury:**

**“What a sky! The blue  
hours are definitely  
something every  
fisherman in the Baltic  
area loves. Big trout  
come close to shore.”**

**“Nicely shown calm  
sea.”**

# Fishing & Sailing on the Baltic Sea

**Jury:**  
**“Anglers friendship :).”**

**“Kayak fishing is a  
great way to fish and  
the combination with  
the sailing boats is  
nice.”**

# On track for sea trout the sunset in view

**Jury:**  
“Going into the golden hour always higher your expectations for the fishing. We like this picture because of the beautiful sky and the bright and blue colours. Makes you wanna go to the coast.”

# Catch and Cook at the Baltic Sea

**Jury:**  
“A meal on the beach  
is a great idea.”

“A nice picture of  
some delicious food.  
It’s always good with a  
home cooked meal on  
the coast.”

**Jury:**  
“The nature is beautiful and the place seems like a nice place to fish.”

“Beautiful sea bay with a fishing rod in the background.”

# Cod with scientific marking

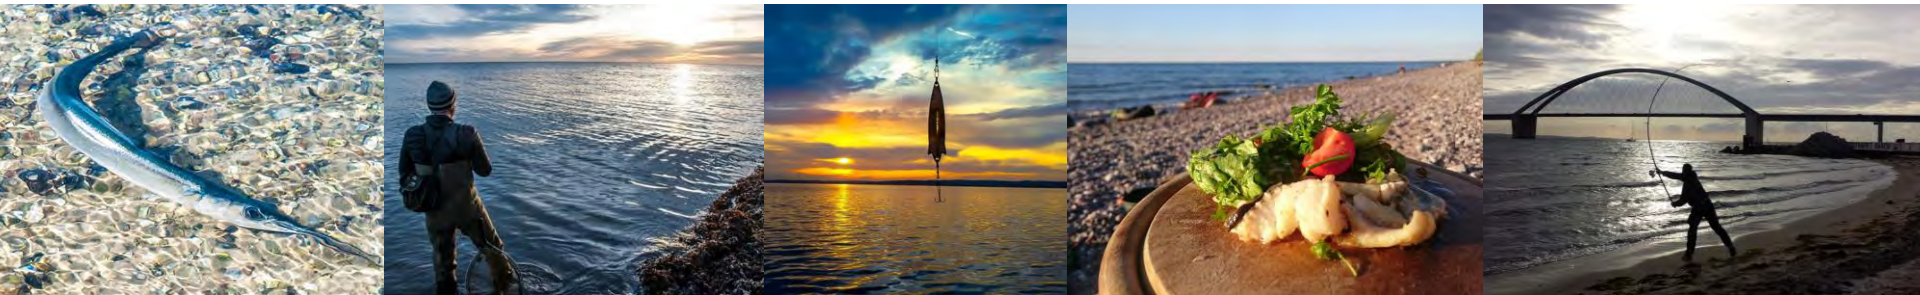

**Jury:**  
“A nice picture with beautiful colours. The picture tells an important story about how the Baltic countries try to learn more about the cod population in the Baltic Sea, so we can manage to help the population back on feet again.”
